Hillview High School

TUSD STEAM Programs

Tustin Unified offers enriching science, technology, engineering, arts and mathematics (STEAM) and Coding programs at each school, grades K-12. Makerspace and computer science opportunities are available at all elementary and secondary sites, respectively. Each comprehensive high school has award-winning engineering and media arts. TUSD has a world-class K-12 Robotics Program and recently sent 12 teams to the VEX World Robotics Championships to compete with the best. TUSD has joined forces with other school districts, colleges, universities and business partners throughout Orange County to create college and career pathways.

CAASPP – Percent of Students Meeting or Exceeding Standards

The California Assessment of Student Performance and Progress (CAASPP) in English language arts/literacy and mathematics was administered to students throughout California over the last three years. The Tustin Unified School District student achievement continues to exceed the county and state averages on the CAASPP exam for the 2017-18 school year.

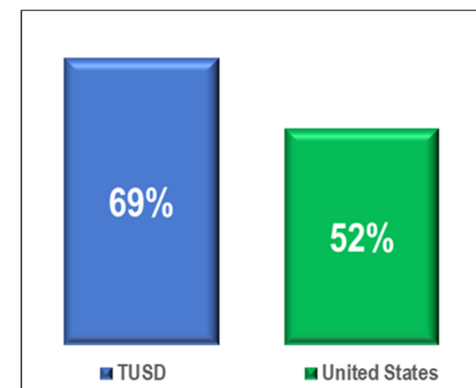

Measure S Technology Update

In 2019-20, approximately 23,400 student devices have been deployed, including nearly 8,500 new Surface Pro 6 devices. K-8 students use Apple iPads, and high school students use Surface Pro 6's.

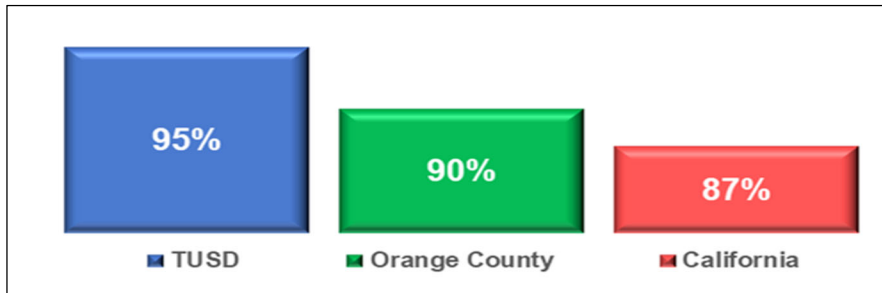

These devices, along with upgraded classrooms that house interactive displays, Apple TV, voice amplification and teacher computers, are providing TUSD students with an engaging classroom experience.

Percent of Students Scoring over 1060 on 2018-19 SAT

TUSD's Scholastic Assessment Test scores continue to be higher than the nation. The SAT test consists of math, critical reading and writing sections.

2018 Cohort Graduation Rates

Signature Academic Programs

GATE/PBL Magnet Programs

Heritage Elementary School, Columbus Tustin Middle School GATE/STEAM and Tustin Memorial Academy magnet programs provide specialized instruction for students in grades K-8. The Gifted and Talented Education (GATE) and Project-Based Learning (PBL) programs set students up perfectly to be successful in a rigorous AP, IB and Early College course of study.

Spanish Dual Language Immersion Program

English- and Spanish-speaking students are learning to read, write and communicate effectively in Spanish and English in the program at Jeane Thorman Elementary School. They develop bilingual skills and cross-cultural competencies needed to succeed in a multicultural society and global economy.

Elementary Music Program

The elementary music program for third-, fourth- and fifth-grade students emphasizes collaboration, creative expression, movement and performance. Credentialed music teachers engage students in lessons developing keyboarding skills, music technology, strings, winds and vocal courses that culminate in student showcase performances.

Legacy Magnet Academy – Opening August 2020

Legacy Magnet Academy will be the premier 6-12 school in the region for students who wish to pursue their passion for Technology, Innovation, Design and Entrepreneurship (TIDE). In the context of Project-Based Learning (PBL), students will learn their core content through the lens of business and entrepreneurial thinking. Students will become experts in the design process, acquire the skills necessary to successfully participate in the entrepreneurial start-up process, and complete courses offered in partnership with local colleges allowing for college credits prior to exiting high school.

Tustin Connect

Tustin Connect is an online K-12 school with a personalized and flexible learning environment, allowing students to progress at their own pace. It is WASC-accredited, UC A-G and NCAA approved, and enables students to play music and sports at their neighborhood school.
